

HS Science Teacher

Valley Christian High School is seeking a full-time science teacher for the 2021-22 school year. Members of the high school faculty excel at creative problem solving, working with a diverse student body and engaging in authentic relationships with students. Our desire is to provide transformative learning opportunities for students. Prospective faculty members should be able to design creative learning experiences where students must apply their learning in real-world settings.

At VCHS, our students come to school with a wide array of abilities, interests, and backgrounds. It is the job of our faculty to engage each individual student and develop a relationship that not only supports learning, but provides mentorship and wisdom on the journey to adulthood.

Position Profile

The preferred candidate will:

- Have expertise in the content areas of chemistry and biology
- Have experience successfully teaching at the secondary level
- Use a wide range of methodology to engage a diverse student population
- Creatively adapt the current curriculum to areas of personal expertise
- Collaborate in a professional learning community
- Design purposeful and engaging lessons
- Develop student-centered projects that extend beyond the classroom walls
- Teach science courses with his/her faith woven through lessons and teaching

A bachelor's degree in a related field of study (e.g. Chemistry, Biology, Secondary Education) is preferred. Applicants must profess faith in Jesus Christ and be active members of a local church community.

If interested, please submit your cover letter, resume and references to Marlaina Goldine at: mgoldine@vcschools.org
